

LIST OF APPENDICES

Appendix A - Results of a Literature Review for the Loxahatchee River and Estuary

Appendix B - Historical Vegetation Distribution along the Northwest Fork of the Loxahatchee River

Appendix C - Vegetation Surveys along the Northwest Fork of the Loxahatchee River

Appendix D - Statistical Analysis of Flow Salinity Data

Appendix E - Preliminary Results of the Loxahatchee Estuary Hydrodynamics/Salinity Model

Appendix F - Salinity Conditions in the Loxahatchee Estuary (based on Russell and McPherson, 1984)

Appendix G - Results from a Preliminary Soil Salinity Sampling Event along the Northwest Fork of the Loxahatchee River

Appendix H - Analysis of Simulated Long-Term Mean Daily Salinity from Sites along the Northwest Fork of the Loxahatchee River

Appendix I - Simulation of Consumptive Uses within the Loxahatchee Basin

Appendix J - Peer Review Comments on the July 15, 2002 MFL Draft Document and District Staff's Response to those Comments

Appendix K - Correspondences and Letters Received on the July 15, 2002 Minimum Flows & Levels Document

Appendix L - Selected passages from the Florida Statutes and Florida Administrative Code

Appendix M - A Summary of Other Planning and Implementation Efforts in the Basin

Appendix N - Analysis of Flooplain Hydroperiod and Water Levels along the Upper Northwest Fork of the Loxahatchee River

Appendix O - Public and Agricultural Water Supply

Appendix P - The Effects of Freshwater Inflow, Inlet Conveyance and Sea Level Rise on the Salinity Regime in the Loxahatchee Estuary

Appendix Q - Correspondences Regarding the 2002 & 2003 Minimum Flows and Levels Priority List

Appendix R - Review of Methods that could Potentially be used to Develop MFL Criteria

Appendix S - Staff Responses to Comments and Frequently Asked Questions
